## NEW PRODUCTS

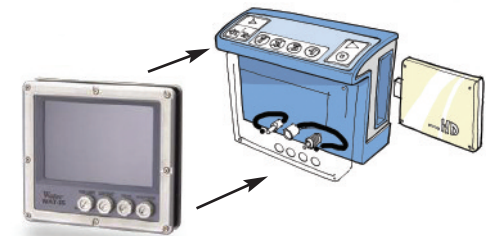

### **APAQ-2000**

The APAQ-2000 miniature waterproof housing comes pre-wired for easy integration with 360 degree rotation for mounting to nearly any angle. Developed for military applications, this housing is rated submersible with your choice of a near IR sensitive monochrome camera (.00007lux@F1.0) or the 24 hr solution of a high resolution, ultra sensitive day/night version with your choice of optics.

Also available with incorporated heater and blower; which allows for a variety of climate applications.

Shown with optional filter attachment.

### **DR-4**

The new portable miniature DR-4 Multiplexing DVR from Watec provides high quality image recording of up to four (4) channel selectable with split four (4) view ability. With up to two (2) hours of JPEG compression format recording time and date stamp, loop record, as well as PC viewable files, the DR-4 will provide you with the best possible image quality available. The extremely light weight DR-4 Multiplexer was designed to attach to the WAT-35 (3.5" LCD color monitor) for convenience and portability.
